Let Chevrolet tell its own story of riding and driving comfort

The best way to get the truth about the new Chevrolet is to make the Ownership Test. Drive this car over the same routes, in the same way you drive your present automobile, and let the results you can see and feel tell their own story. A ride will prove that Knee-Action makes bad roads good, and good roads better. A ride will prove that shock-proof steering, Syncro-Mesh

gear-shifting, a remarkably flexible 80-horse power engine, and cable-controlled brakes make a big difference in safety and driving ease. A ride will show you why so many thousands have found it impossible to return to ordinary driving after an experience like this. CHEVROLET MOTOR CO., DETROIT, MICH.
